maximum cutting depth
38mm

blade No.07011

PANEL PIERCING H-240

Ideal for intricate and precise woodwork (crafting musical instrument, dovetails etc).

ITEM	pcs./ctn.
saw blade	72(12×6) 360(36×10)

Blade Length	240 mm	Pitch	1.50 mm
Thickness	0.30 mm	Kerf	0.51 mm

No.07026

maximum cutting depth
50mm

blade No.07027

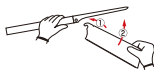

POCKET CUTTING

Blade replacement

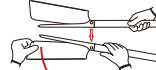

Caution :
Since the saw teeth are very sharp, we recommend that you wear gloves or wrap the blade with something (a cloth or towel or its cardboard sleeve) when replacing the blade.

Attachment

Hook the blade into the spine. Tap the spine on a small block of scrap timber to attach the blade.

Detachment

Tap the front edge on a small block of scrap timber to loosen the blade. Pull the blade out of the spine.
